

About Us

Prevention Specialists, Carla Earlywine and Kathy Tashjian are the co-founders of Touching on Safety, Inc. They are registered nurses with combined experience of 30 years at Children's Hospital Medical Center in Cincinnati, Ohio. Both are married with three children and are active in their communities; volunteering with church and school activities. Because of personal exposure to the devastation of child sexual abuse they became passionate about taking an active role in reducing the risk of sexual abuse for all children and families.

Contact us for more information or to schedule a Touching on Safety, Body Boundaries for Kids Parent Program:
